FLORENCE
Sewing Machines.
THE BEST IN THE WORLD!!

Highest Premium, Fair American Institute.

Highest Premium, State Fair of California, 1866.

It makes four different stitches, the lock, knot, double lock, and double knot, on one and the same machine. Each stitch being alike on both sides of the fabric.

Every Machine has the reversible feed motion, which enables the operator, by simply turning a thumb-screw, to have the work run either to the right or left, to stay any part of the seam, or fasten the ends of seams without turning the fabric.

Changing the length of stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion.

The needle is easily adjusted.

Its motions are all positive; there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it.

It does not require finer thread on the under than on the upper side, and will sew across the heaviest seams, or from one to more thicknesses of cloth, without change of needle, tension, or breaking thread.

The only machine having a self-adjusting shuttle tension—the amount of tension always being in exact proportion to the size of the bobbin.

The hemmer is easily adjusted, and will turn any width of hem desired.

It is almost noiseless, and can be used where quiet is necessary.

No OTHER MACHINE will do so great a range of work as the Florence.

BROOKLYN
LIFE INSURANCE COMPANY,
OF NEW YORK.

No Life Insurance Company in the United States has experienced a greater degree of prosperity than the "BROOKLYN," which is fully merited by liberal dealing and able management. Policies are issued upon every plan of Life Insurance, and the rates are as low as offered by any equally sound company.

The Dividends are declared on the first day of January of each year, and are paid in cash, not scrip. They have not been exceeded by any other Company in the same space of time, and as it is a SURPLUS COMPART, they are divided equally among the insured.

Every Policy issued is NON-FORFEITABLE, and IRREVOCABLE.
The course of the "Brooklyn" is promptly paying its losses is highly commended, not only by the people of the Atlantic States, but likewise meets the warm approval of those of the Pacific slope. Reference is made to our insured in every city, town and village on this coast.

The Beautiful Land.

There's a beautiful land that lies beyond
A deep and mighty river;
And they whom we love most find
First feel the cool tide's shiver.

This beautiful land is hid from view
By the mist of the rising river;
That hangs like a pall o'er its tide of blue
With a moody, ghostly quiver.

'Tis said, beyond this beautiful land,
Across the river flowing,
There's a shore of pearl, with golden sand,
And flowers forever blooming.

In this beautiful land there's aught of magic,
To darken the sunbeam's glimmer;
The glistering robes of spotless white,
Like sparkling dew drops glimmer.

And there, on the shadowy further side,
Stands a babe and her mother with hand,
And they beckon me through the very air,
That beyond we may live together.

TREASURE SEEKERS.—The New Tribune of a recent date has the following:
The Frigate "Husar" Company met on Saturday at No. 10 Wall street, Mr. Charles B. Pratt, President, in the Chair. The Co. was organized to prosecute the search for \$900,000, or \$4,800,000, in British gold, sunk at Hell Gate in the British frigate Husar, during the Revolution. The vessel struck on the 25th of November, 1770, on Pot Rock, nearly opposite the upper extremity of Randall's Island, carrying with her seventy American prisoners and \$900,000 in gold. Mr. Pratt has been engaged in the enterprise seventeen years, and is still sanguine of success. The decks of the frigate have been blown off, and nothing but the ribs and bottom now remain. Operations have been carried on only at intervals during the summer; the strong current and the great depth—eighty feet—interfered with the movements of the divers. Negotiations are pending with a Diving Company to continue the work this autumn. Mr. Pratt has a few sovereigns of the reign of George III, and other curiosities which have been recovered from the wreck. That the \$4,800,000 was lost in the Husar, the Co. has been assured by official information obtained from the War Office in England and they are generally confident of the early realization of their hopes.

BIG COCKROACHES.—A day or two ago a gentleman who does his own marketing, purchased among other things a pair of live lobsters. The servant being out on an errand when he returned, he personally placed the lobsters on the cement floor of the cellar. While dining, his wife heard a voice beneath, as if some combat was in progress in the cellar. A moment afterward, the servant, who had been about three weeks in the country, came puffing into the dining room.

"Fath, ma'am, an' I've killed 'em both!" was her eager exclamation.
"Killed what, Catharine?"
"Faith, ma'am, two big cockroaches—the biggest you ever heerd on."

Husband and wife looked at each other, and informed Catharine that at the table such topics must never again be touched, and resumed exercise with the knife and fork.

Catherine went out, saying in an undertone, as she descended:
"Well, this is a queer country, whin' ye have to take hatchets to kill roaches wid, an' nothin' strange thought of it!"

The mystery was solved after dinner. The exile of Erin had chopped the living lobsters into pieces with a hatchet, supposing them to be some variety of household vermin. There was not any lobster salad that night in that domicile.

WHAT A GOOD NEWSPAPER MAY DO.
Show us an intelligent family of boys and girls, and we will show you a family where newspapers and periodicals are plenty. No body who has been without these silent private tutors can know of their educating power for good or evil. Have you ever thought of the innumerable topics of discussion which they suggest at the breakfast table; the important public measures with which, thus early, our children become acquainted; great philanthropic questions of the day, to which unconsciously their attention is awakened and the general spirit of intelligence which is invoked by these quiet visitors? Anything that makes home pleasant, cheerful and chatty, thins the haunts of vice and the thousand and one avenues of temptation, should certainly be regarded, when we consider its influence on the mind of the young, as a great moral and social light.—Emerson.

THE DIFFERENCE.—Hobbs, the old rascal, says an American girl loves with her eyes, an English girl with her arms, a French girl with her lips, and an Italian and Spanish with all three. A Boston woman capitulates in three months, a New York woman in two, and a New Orleans woman in one. A California girl, if the appearance of the applicant suits and she is anxious to marry, as is generally the case, makes up her mind to give an affirmative answer whenever she has the opportunity to do so. Causes partly climatic and constitutional, and partly a few words from the old folks in the back room.

There are 358 churches in New York city. They are capable of seating 126,800, and the usual attendance is 100,000. The salaries of the clergy amount to \$204,400.

QUINCY, PLUMAS CO., CAL.

SATURDAY, OCT. 26, 1867.

ANOTHER VICTORY.—Notwithstanding the tremendous efforts made by the leaders and managers of the Radical party in this State, to secure the election of their candidates, Curry and Sweet, notwithstanding the "Union party" had 20,000 clear majority in the State, the Democratic candidates for Supreme Judge and Superintendent of Pub. Instruction were elected by large majorities. The vote on Supreme Judge shows that instead of the Radical party making "large gains," the Democrats have gained considerably since the last election, as can easily be seen by comparing the vote of the Democratic candidate for State Treasurer, the best test on the ticket with that of Sprague. The total vote cast at the Judicial election, was not more than two-thirds as great as that at the general election, and yet Sprague's majority is nearly as great as was Cornell's. Full returns have not been received from all the counties, but enough is known to warrant Sprague's election by 2,300 majority, and Fitzgerald's by 1,000.

A LITTLE BLOW.—A majority of the Radical papers in this State are at a loss to understand the cause of the great change which has taken place in this State in politics during the past two years. To us the cause is very easily accounted for, and, as several of the lower country papers have recently been "footing their own horns" about the amount of influence wielded by the press, never omitting to count themselves among the most influential, we have concluded to explain the mystery in public sentiment, and in so doing show conclusively that the Quincy Union is a power in the land. Cause why? Want the Quincy Union the only paper in the State that bolted the Rads two years ago, and stayed bolted. Hence, did it not cause the great change, and cause the Radical party vote to be reduced over 25,000 in two years, and give the election to their opponents, and as the result in California had not a powerful effect, (see Sac. Union) on the elections in Ohio, Pennsylvania, and Indiana, is it not just and right for us to claim that to the Quincy Union belongs the honor of the defeat of Radicalism throughout the length and breadth of our great and glorious Union of free and independent States. There now, what do you think of that, Messrs. Radical party papers? Can any of you beat that little blow?

PROBLEM.—If, as stated by some of the Radical party mathematicians, the result of the elections in Connecticut, Maine, Vermont and California did not show any decrease in the vote of that party when compared with the vote of '65, how much we would ask, has that party gained in the recent elections in Ohio, Pennsylvania and Indiana. Will some of those papers which published Greeley's figures to prove the first proposition, be kind enough to tell us what per cent has been added to the Radical party strength, taking the vote of '65 and comparing it with that of '67?

VIRROSA.—The Vallejo Recorder of the 18th instant, says: "On Tuesday, several gentlemen interested in the railroad visited this place, among the party being Dr. D. W. C. Rice, President of the California Pacific Railroad Company; Wm. E. Bolinger, President of the Beckworth Pass Wagon Road Company; and Hon. James A. Johnson, Congressman elect from the Third District."

GLORY EXOTIC.—Bliss, Democrat, was elected County Judge in Yuba, beating Jesse O. Goodwin, Radical, late Independent candidate for Congress from the 3d District. Lett, Dem., is elected Co. Judge in Butte. His opponent was Safford, the present incumbent.

NOVEMBER ELECTIONS.—The following States hold elections on the 5th of November: Delaware, Illinois, Maryland, (unless changed by the new Constitution) Massachusetts, Michigan, Minnesota, Missouri, New Jersey and Wisconsin.

SORE.—From the manner in which the Sac. Union and Marysville Appeal are picking at each other, we should judge that there was considerable "sore-headedness on the cranium" of each of those papers, caused by the result of the recent elections. "When rogues fall out," &c.

PROSPEROUS.—The S. F. Examiner has been enlarged—donned a new dress, and looks as neat as a boarding school miss on examination day. We are pleased to learn that the Examiner is now a paying institution. Success to it.

The Beckworth's Pass Route.

Beckworth Pass is known to be much lower than that on which our Central Railway runs. It is said to be free from the snow obstructions that are so serious on the latter route. The people of Marysville are reported to be encouraged by the owners of the eastern section of the Pacific Railroad beyond Salt Lake to make a new railway from Marysville, through Beckworth Pass, to the line of Nevada State. The Eastern line is said to contemplate making a road independently of the Central Pacific, from Salt Lake to San Francisco, via Beckworth Pass. This is generally believed by persons in the interest of Marysville, but we cannot see that it has any reasonable foundation. [S. F. Alta.]

The fact admitted by the Alta, that Beckworth Pass is much lower than the route adopted by the Central Pacific, and that it is free from snow obstructions, should be of itself, sufficient foundation for the belief that ere many years have passed a rail road will be completed over this route; but when we add the further fact, that a Railroad Co. is already incorporated upon this route and now have a corps of engineers at work surveying and mapping the same, and which will undoubtedly demonstrate the fact that the Beckworth Pass and Feather River route is the only practicable railroad route across the Sierras, should not every one identified with the interests of Northern California, every citizen from Vallejo along the proposed route to the Eastern line of the State, and every one who desires the establishment of uninterrupted communication with the Eastern States by railroad, feel confident of the success of this enterprise. Let those who are directly interested in the building up of this route and the consummation of this grand enterprise unite in presenting its advantages to the public and demanding of our authorities, State and Federal, but a title of the government aid which has been given and in a great measure wasted upon the Central "snow shed" route, and three years will give us a railroad across the mountains three thousand feet below the Dutch Flat route and where it will not be interrupted by snow or storm. Northern California has been neglected long enough; let her citizens show up their natural advantages in this respect, demand their rights with that earnestness and unanimity which the subject requires and the Alta will be forced to see that the friends of the route have a reasonable foundation for the belief that a road will be built over it. So mote it be.

NOTORIETY.—The Appeal and Alta seem to be worried over the fact that they are unable to point out a single one among the Democrats elected as members of the next Assembly, who are noted men, or who are known by said papers to be possessed of more than average ability. The Democrats, with a few exceptions, have had but little opportunity during the past six years to become noted politicians, swindlers, schemers, land grabbers, etc., and therefore we are willing to admit that none of them have gained such notoriety as certain of the pets of the Rads have done, but that there are a number of Democrats elect who, during the next session of the Legislature will prove themselves equal to the best in the Radical party, in point of ability, we have no doubt. It is not always the rooster that crows the most that makes the best fight.

A TIE.—Bruce, Rad., and Murray, Dem., received the same number of votes each for County Judge in Lassen, at the last election. The question of the legality of the election will have to be decided first. If decided that the election was according to law, a new election will have to be ordered, otherwise, Bruce's appointment will hold good for the next two years.

ACKNOWLEDGMENT.—The telegraphic summary published in this paper, is usually made up from news received by the Associated Press, and published in the Sacramento Union. It costs the Association several thousand dollars a year for the dispatches, but us country papers take it second handed and thereby get them free gratis for nothing.

NEW YORK.—This year elects a Secretary of State, Comptroller, State Treasurer, Attorney General, State Engineer and Surveyor, Canal Commissioner, Inspector of State Prisons, and Judge of the Court of Appeals and Legislature.

A GOOD BUSINESS.—The Advertising Agency of Geo. P. Rowell & Co., No. 40 Park Row, N. Y., furnish regularly from one to three columns of advertising to nearly one-half of all the newspapers in the Eastern Middle and Western States.

QUINCY.—If Fitzgerald is elected, said a majority of the Radical papers, it will be an endorsement of Jeff. Davis and secession by the people of this State. Wonder if they are still of the same opinion?

A WINDFALL.—A citizen of Washington, Nevada county, who had his property destroyed in the fire, was kicking around among the ashes and cleaning up for the purpose of building a new house, when he "raised" a \$20 piece. Further search developed the fact that one thousand dollars in gold coin "lay around loose" among the ruins. It turned out that this neat little sum was hid away by the merchant for safe keeping, and he forgot where he put it. He supposed it was stolen, and accused parties of the theft. It is probable he never would have found the coin except after a fire, and he was not much loser by the destruction of his store. This is one of the few instances where a treacherous memory has benefited a man in the hour of need.—[Ex.]

THE CENTRAL PACIFIC RAILROAD COMPANY are selling large quantities of land in the foothills at the present time, some buying to secure the timber, and others for farming and vine growing purposes.

STATE NEWS SUMMARY.

The Central Pacific R. R. Co. are selling large quantities of land in the foothills. The Telegraph between Helena and Virginia City, Montana Ter. is completed. A Mexican killed an American named W. Johnson in an affray at Lone Pine, a few days since. Laurel wood has been shipped from S. F. to Buffalo, N. Y. for Fargo, of W. F. & Co. It is to be used to decorate the interior of a dwelling house now being built for Mr. F. in that city. A man named Beid of Oakland, has fallen heir to \$45,000 left him in England, by the death of a rich relative. A man named W. Warren attempted to blow his brains out at Virginia City, on the 11th inst. He had been bucking at the "tiger" and—lost. The steamer "O.K." running on the Independent line between Sacramento and M'ville, was sunk on the 12th. The S. F. and Sacramento steamers scratch the "Hog's Back" very frequently in making their trips, and are often several hours behind time in consequence. Ben. Myers was injured by the explosion of a gun at Red Dog a few days since. The Apaches in Arizona, are again upon the war path. The S. F. Chamber of Commerce have appointed a committee to examine into the expediency of opening steam communication on the Colorado. There are 2993 miles of Rail road completed in this State. Pat. Dolan's wife buried \$3,000, at Moore's Flat recently, and when she went to get it, lo, and behold, it was gone and no trace of it has since been found. The Trespass notices the arrival of a large number of teams in Virginia City from Honey Lake, loaded with hay, butter, grain, etc. John Smith, a youth fourteen years of age has been arrested in S. F. on charge of attempting to commit a rape on a girl thirteen years old. The Chinamen have been trying to drive the devil and his auxiliaries out of Sacramento. They have undertaken an impossible task. The total vote of the State at the September election was 93,388. Six hundred persons are now receiving aid from Denevolent associations in S. F. The Pacific Woolen Co. have filed articles of incorporation. Three Mexicans recently attempted to rob a company of Chinamen at Rough and Ready but the Chinamen showed fight, captured one of the robbers and pounded him nearly to death; the others escaped. On Wednesday of last week a little son of Judge Sexton of Oroville, was thrown from a horse and narrowly escaped being killed, his foot hung in the stirrup and he was dragged some distance, his boot came off, consequently he escaped with only slight injuries. The Democratic officers elected in S. F. intend to reorganize the Police department of that city. It needs it. Philip Dick is to be hung in Stockton for the murder of S. M. Simpson. An elk weighing 500 pounds was killed near Lake Bigler a short time ago. S. E. Crawford has been appointed U. S. Internal Revenue Collector for Sierra county. Congressman Johnson went east on the Steamer of the 19th. A terrible tragedy occurred at Little Lake on election day. Seven men killed, five of one family and two of another. A feud had existed between them for years. The Supreme Court met on the 21st. A flouring mill was burned at Lincoln on the 20th. Charles Wilson was hung by the Vigilantes at Virginia City, Mon. on the 26th of last month. A son of Geo. Hedd was run over and killed by a R. R. car in S. F. on the 19th. A daughter of J. Porter of S. F. eloped with a gay gambler on the 17th. A Chappelle, stock broker, of S. F. committed suicide by jumping from the Oakland ferry boat on the 19th. The prize fight between Bush and Budd came off at Coburn's station on the 20th, sixteen rounds were fought, and Budd was declared the winner of the fight and money. A Live Stock Insurance Co. has been formed in S. F. Officer Richardson of Oakland, was killed by a negro on the 22d. The murder caused a great excitement and the probability is that the murderer has been hung ere this. La Rue, Democrat, has commenced suit against White, Radical, for the purpose of having the courts decide which one of the two was legally elected Sheriff of Sacramento county. Corn huskings are all the rage in Napa. A movement to repeal the city charter of M'ville is being made by some of the Democrats.

SPEAKER.—Hon. C. T. Ryland of San Jose, is spoken of as a candidate for Speaker of next Assembly. He would be the right man in the right place.

BROCK. of Copper City, Shasta county, killed an elk in the mountains near Squaw Valley, which weighed 700 pounds when dressed.

BORAX.—The Clear Lake Borax Company are taking out thirty-five tons per month, and find a ready market for all they can produce.

ONE GRAPE VINE in Santa Barbara county produces 12,000 lbs. of grapes. The vine is a foot in diameter, and forty years old.

HEAVY JOB.—A wood-chopper, named Thomas Smith, living near Grass Valley, will wage \$200 that he can cut, split and pile up six cords of oak wood, in twelve hours, the banter to remain open for two months.

Marriages.

In San Francisco, Oct. 17th, by Rev. F. Mochlake, Mr. GEORGE S. McKEAR to Mrs. JENNIE PERSON, both of this county.

In San Francisco, Oct. 18th, by Rev. F. Mochlake, Mr. FRANK STANLEY to Mrs. MARY T. LEVY both of this county.

At Susanville, Lassen county, Oct. 11th 1867, Mr. M. KNOX to Mrs. F. GRAY.

Births.

At Quincy, Oct. 22d, 1867, the wife of Hon. E. T. Hogan, of a daughter.

TELEGRAPHIC SUMMARY.

Charles F. Dana of Boston is dead. Eastern capitalists have proposed to take the Southern Pacific R. R. on the terms of Fremont's contract and build it forthwith. Col. Gilbert who suppressed a newspaper in Arkansas, has been tried, found guilty and sentenced to pay a fine of \$1,000 and reduced in rank. The members of the Judiciary committee still threaten impeachment. They will "dry up" on that subject when they hear from the N. Y. election in November. The Fenians are anxious to capture the Queen, so says a rumor. The Radicals threaten to contest Sharwoods election in Penn, and the Democrats in Ohio contemplate contesting Hays' election as Governor on the ground that the negroes were allowed to vote in certain counties. Work has been commenced upon the Southern branch of the Union Pacific R. R. The race horse Kentucky failed to make four miles in 7.30 on his first trial, he has two more chances. The Emperor of France has summoned a general council of the cabinet to consider the affairs of Italy. The N. Y. National Banks will not redeem the counterfeit bonds which passed through their hands and were received by the Gov. officers. A negro riot occurred in Baltimore on the 18th, one white man was killed. Santa Ana has been sentenced to exile for eight years. Juarez has been elected President of Mexico. The trial of Jeff. Davis will commence on the 28th, three white men and nine negroes constitute the jury. That sounds nice, don't it. The detectives have obtained a clue to the counterfeiters of the U. S. bonds. The Fenians attempted to release some of their comrades confined in Chester; the attempt was unsuccessful. The rates of charges for telegraphing over the cable are to be reduced fifty per cent on the present rates (No dispatches were received by the Associated press on Tuesday and Wednesday, hence our summary is necessarily brief).

CLEAN SWEEP.—The Democrats in San Francisco elected their whole ticket at the Judicial election.

Perry Davis' Pain Killer.

Travelers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home, are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a glass of new milk and molasses, and a glass of hot water. Suffer with colic, and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a Little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated. Bait as often as once in five minutes, say three or four times, and you will seldom have any trouble.

LOCAL ITEMS.

NEXT WEEK.—"Francois" letter will appear next week.

CLOSED.—The Fall term of the District School in this District has closed.

REMOVED.—Mr. Dean has removed his harness and saddle shop to the room in the Harrison building, over Lee's store.

PURCHASED.—We learn that Mr. T. Hughes of Soda Bar, has purchased the ranch in Indian Valley formerly owned by Mr. Forgy.

STAGES.—A line of stages has been placed on the road between Quincy and La Porte, and will hereafter make regular trips every other day. Dr. S. T. Brewster is the proprietor.

COMPLIMENTARY.—On the departure of the La Porte delegation for home, they gave three lusty cheers for "Jim Edwards, one of the best landlords in Plumas county."

EXCELLENT.—All who have been over the Quincy and La Porte wagon road, pronounce it an excellent one. We intend to take a trip over it in a short time, after which we shall be able to give it a more fitting notice.

RETURNS.—The vote of several of the precincts is not definitely known and the vote of the Co. can not be given until the returns are canvassed by the Supervisors. In three or four precincts no polls were opened.

FEDERAL TAXES.—J. S. Root, U. S. Fed. Tax Collector for this County, gives notice that he will be at his office in Quincy on the 28th and 29th inst. to receive and receipt for Federal taxes. Pay up and save the extra per centage which will be added on all delinquent taxes.

MINING.—Several new companies are fitting up claims in the Mountain House District, and from present indications we should judge that the next mining season in that locality will be a very lively one. Some of the best paying hydraulic claims in the county are located in that district, and there is a splendid field for prospecting, with good chances of securing rich claims.

BRASS BAND.—The Gibsonville Brass Band, which came over with the La Porters, has been organized but a few months. During that time the members have been under the instruction of Mr. D. C. Hall, which fact, no doubt explains to a great degree, the reason of their becoming such excellent musicians in such a short time. The band numbers six pieces, and for its size will compare favorably with any band in the mountains. Our Quincy boys will have to watch out or the Gibson band will be entitled to the premium.

ARRESTED AND DISCHARGED.—On Wednesday last, Mr. Elmer Light made a complaint before the J. P. at Indian Valley, against Marcus Light, charging him with exhibiting a deadly weapon in a rude, angry and threatening manner. A warrant was issued and defendant arrested. The examination took place before the J. P. who issued the warrant, and after hearing the evidence in the case he ordered the defendant discharged, there being no ground for the charge. The Lebanon quartz mill, owned by A. E. Light, is causing a great amount of trouble between the parties, and if some one does not get hurt before the matter is finally settled, it will surprise us. Mr. Gear of this place, was the attorney for the plaintiff in the above criminal action.

POORMAN'S CREEK.—The miners generally, says a correspondent are doing well. Mr. A. Turner has had a streak of bad luck during the summer. He has one of the best claims on the creek, but his tunnel has caved in twice during the past few months. He is now about ready to take out pay dirt again. Whiting, Henly & Co. are doing well in their creek claims. C. Baird is making good wages in his claims. T. Moore's luck still clings to him. W. Evans & Co., in the Center Shoshone claims, are making four dollars per day to the hand, in the top dirt. Bradley & Co. are doing well. White, in the old Genie claims made a big summer's work, and has ground enough to last a life-time. It is one of the best hydraulic claims in the county.

NELSON AND VICINITY.—A correspondent writing under date, Oct. 21, sends us the following: Ellerman & Gohda were twice driven out of their claims by the high water, but are and have been doing well. Stevens, Ballou & Co. were also driven out. They have fitted up again, and have a number of Chinamen working on shares. Reed & Kane have also resumed operations and are making from six to ten dollars per day to the hand, and have a prospect of doing still better. Kohler, Lee & Co., have commenced work again. They are down twenty feet, and find the "bed-stone" still pitching, up stream. Things look rather "sooty" for the boys, and they think of going to the dry diggings before the rainy season commences. The Chinese companies in the river are making money this season, at least dust seems to be plenty with them, and they are living on the fat of the land—(hog meat and chicken.) Shubert & Murken are not mining at present, but are putting up a dwelling house. After they get fixed up, they intend to get out lumber, timbers, &c., for the bed rock flume in Nelson Creek, which promises to be one of the best paying investments ever made on the creek, or in the county. Jackson & Jolly have their claims newly fitted up, and will be ready to commence work as soon as a supply of water can be had. Their claims paid good wages last season, and they hope to do still better the next. Hardy's claims are paying him good wages; Dilks the same. The "Duke" and Sam. Ballou have just completed a ditch to carry water on some new claim, which the "Duke" says are the best in the county. Our little town has presented quite a lively appearance during the past three or four months, but as the road and bridge are completed, and the men about to leave, it will doubtless be dull again for a while. Social and honest games are occasionally indulged in by some of our citizens to pass off the evenings. Even the native Americans once in a while indulge in the same pastime, but as a matter of course, always get "hipped." A little scrimmage took place here a short time ago, between a couple of our notables. Each party got enough of the pi, and quit of their own accord. One had his figure-head disfigured, his sky-light darkened, and his cut-water bruised, while the other fared but little better. Teams have commenced to travel on the new road. We presume the town authorities will after due consideration of the subject, conclude to remove the town to some point nearer the road.

A SURPRISE PARTY.—WAGON ROAD CELEBRATION.—On Thursday evening last, a number of stages and buggies containing a delegation of about thirty of the citizens of La Porte, headed by the Gibsonville Brass Band, arrived in Quincy. None of our citizens were aware of the intended visit, and the music of the Band was the first intimation had of their coming. It took our people by surprise, but they soon found out what was going on, and as soon as possible the cannon was rolled out, and a salute fired in honor of the occasion. A large number of our citizens gathered together at the Plumas House, and informally welcomed the La Porters. Everybody felt happy and everything seemed to be lovely. During the night a procession was formed, headed by the Band, and marched around town, stopping to serenade some of our citizens. Speeches were made by Messrs. J. D. Goodwin, Hogan, and Gear, on behalf of the citizens of Quincy, and Dr. Brewster, in his usual happy style, acted as the speaker for the La Porters, and well did he sustain his part. It was late in the morning before the revelry ceased, and not one incident happened to mar the pleasures of the night's celebration. At about 9 o'clock on Friday morning, the company took their departure for La Porte. We return thanks for the compliment tendered us by the delegation.

A BELL.—The old cross cut saw hanging in the cupola of the Court House which is ponded upon to give notice of the hour for holding meetings, making anything but a pleasant sound and the cracked dinner bell sometimes used is still worse. If the Supervisors would appropriate \$150.00 towards the purchase of a bell, our citizens would pay the freight on it and also the expense of placing it in the cupola. By cutting off a small portion of the bonus given to Brother Gear to keep his "Baby" running, the Supervisors could make the allowance and save money by it. Will they do it?

ACCIDENT AT A BALL.—On Saturday night last, Mr. Corbett of Grass Flat, near La Porte, gave a social party, which was numerously attended. As the guests were setting down to supper, (which was given up stairs) one end of the room suddenly gave way, and precipitated the company some twelve or fifteen feet, to the next floor. Mrs. Chittenden of Port Wine, and Mrs. Rutherford of Grass Flat were severely injured. Several others were slightly injured. It was fortunate that a larger number were not seriously hurt.

SAWPIIT FLAT.—The Eagle, New York and Union Co's are all at work taking out pay dirt, and from the prospect each one will take out lots of money when they wash up. The Buckeye Co. are taking out big pay. Our informant states that as high as \$40 to the set of timbers (big pay that) has been taken out. It is considered one of, if not the best claim on the flat. The Franklin Co. is not at work at present. The Monitor Co. has suspended work for the season.

STEREOSCOPE.—Two exhibitions of Werners Stereoscope, were given at the Plumas House Hall during the past week. The Stereoscope, in plain English, means a magic lantern. The exhibition consists of photographic views (enlarged,) of landscapes, cities, scenery, statues, &c. For a two or four-bit exhibition, it would be very passable, but to charge one dollar admittance, these hard times, to see it, was piling it on pretty steep.

SINGULAR ACCIDENT.—Y. Koppell, of La Portes, opened a box of axes one day last week, and set the box on end with the axes edge out. Shortly after, as Mr. K. was passing, the jar caused one of them to fall out and strike him in the thigh, inflicting a serious wound which was sewed up by Dr. Willard. If it had struck a few inches higher, it would have been certain death. So says the Messenger.

WASHINGTON HILL.—W. Black, in the Union claims, has run two inclines, and struck good pay. The American Co. are making from eight to twelve dollars per day to the hand, regularly. The Mountaineer tunnel is now six hundred feet in length, and a contract has been let to run it six hundred feet further. The company expect to be in and taking out pay dirt in July next.

VENISON.—Through the kindness of Messrs. Reynolds and Turner, we have been able to test the quality of the venison which they secured during their hunt in the vicinity of Lassen's Butte, a few weeks since, and can pronounce it first rate. Thanks, gentlemen.

PERSONAL.—Dr. Willard, J. S. Thomas, J. McKenna, M. Lagan, M. Tranor and Dr. Brewster were among the gentlemen who came over on the wagon road celebration trip, and in their rambles around our town called in at the Union office.

JAIL FULL.—We learn that there are now five or six prisoners confined in the Lassen County Jail. It was a wise move on the part of the Supervisors of that county to contract for having the Jail built before any other of the county buildings, for it was the most needed.

SCHOOL HOUSE.—The Trustees of the La Porte School District have purchased the building in town known as the Social Hall, and are fitting it up for a School room. The size of the room will be 20 by 40.

DISMISSED.—In the proceedings of the Supreme Court on Monday last, we notice that in the case of Conly vs. Price, the petition for a writ of mandamus was dismissed. No appearance was made by plaintiff.

TAXES.—The Tax Collector will be at Spanish Ranch on the 30th, 12 Mile Bar, Nov. 4th, Cariboo 5th, Longville 6th, Big Meadows 7th, Greenville 8th and Taylorville 9th, for the purpose of receiving State and county taxes.

TAX COURT.—The Supervisors will meet on Monday next, the last day allowed by law, to canvass the votes cast at the Judicial Election, and declare the result.

IMPROVING.—A letter to Mr. Rowell states that Mr. C. Haymond is gradually improving in health, and the probability is that he will recover.

MAJORITY.—Lassen gave Curry twenty majority.

COLONEL FORNEY'S

LETTERS FROM EUROPE.

BY JOHN W. FORNEY, ESQ.

Editor of the "Philadelphia Press" and "Washington Chronicle," and Secretary of the Senate of the United States.

Since the commencement of the publication of Colonel Forney's letters from Europe in the Press, the publishers of that paper have been in receipt of innumerable inquiries from those who wished to know if the correspondence would not appear in book form. In accordance with their requests, we will now state that these letters, carefully revised and re-written, with important additions, are now in press, and will shortly be given to the world, in a large duodecimo volume of 500 pages, by the publication house of T. B. Peterson & Bros., Philadelphia, who are sparing no expense to make it a book which shall combine every feature of typographical excellence characteristic of the best publications of the firm. It will contain an excellent steel portrait of the author, engraved in the finest style of the art, by one of the best artists in the country, and it will be in every respect a work acceptable to the numerous friends of Colonel Forney.

It will be published in one large duodecimo volume of over 500 pages, bound in cloth. Price \$2. Booksellers, news agents, canvassers, and all others, are solicited to order at once what they may want of the above book, so that their orders can be filled from the first edition. Address all cash orders, wholesale and retail, to the Publishers of it.

T. B. PETERSON & BROTHERS, 306 Chestnut st., Philadelphia, Pa. Copies of the above book will be sent to any one in advance of the day of publication, to any place, postage paid, on receipt of retail price.

WANTED.—AGENTS AND CANVASSERS in every country, town and village in the United States and Canada, to engage in getting subscribers to the above work.

PIANO FORTES.

Our last new addition to our different styles, is attracting the admiration of both critics and populace. We mention specially some of the claims of this new Piano. Believing the exterior should be as beautiful to the eye as melody is to the ear, we have paid great attention to getting them up in a style that is conceded by all who have seen them to be the handsomest Piano Fortes made. They are an entirely new style, with four full round corners, heavily carved legs and lyre, base richly moulded, and contains our latest improved scale and action. The tone is melodious, and its adaptability to passages of every shade of expression, from the softest murmurs, the Crescendos, and the P. P. gives the performer every advantage of the Concert Grand. Price \$500.
